

Bureau Technical Inspection impartiality policy.

Meeting all the impartiality requirements is mandatory for all Bureau Technical Inspection OÜ personnel. This ensures all client's (private persons and legal entities) credibility to all services provided.

Bureau Technical Inspection OÜ is an independent body that prevents any possibility of any administrative, commercial, financial and/or other pressure intended to affect impartiality.

Bureau Technical Inspection OÜ management states that fully understands the importance of impartiality when providing any service, is aware of all significant threats, and take the necessary actions to eliminate them.

Bureau Technical Inspection OÜ identifies, analyzes and documents the possible risks and conflicts of interest arising in the course of service, including the risks arising from its relationships, including internal and relationships with its customers and interested parties.

Bureau Technical Inspection OÜ unconditionally refuses any use for promotional purposes any statements that the service will be more simple, easy, fast, or less expensive.

Bureau Technical Inspection OÜ requires all staff to immediately report any potential conflicts of interest and emerging threats to impartiality and ensures that all necessary actions will be taken to eliminate them.
